Good morning Christian,
If you have John Herron's email would you please forward this to him? He might find it interesting.
Elizabeth

How reassuring that Verizon and Cox don't find any health problems with 5G. No conflict of interest there.

Reminded me of an article about Dupont and teflon which I have attached.

Elizabeth,

Thank you for your email. I have attached health-related information sheets from both Verizon and Cox for you to review.

Additionally, relating to the aesthetic and character of our historic neighborhoods, telecommunications companies have promised to be good neighbors when implementing 5G, and I plan to hold them accountable.

If there is anything my office can do to assist in the future, please do not hesitate to reach out.

Alex

Mr. Andrade,

Any time the state government preempts local governments red flags go up for me.

You have been quoted in the PNJ to say that there is "no question that 5G implementation will be a benefit for all Floridians" <https://www.pnj.com/story/news/2019/09/18/andrade-wants-verizon-share-details-5-g-transmitters-pensacola/2362830001/>

This is not correct.

The International Appeal to Stop 5G on Earth and in Space, led by scientists and health professionals, presented an appeal to governments all around the world on November 1st, 2018..

Please click on this link to read this scientifically well-documented Appeal

For a quick summary on 5G, check this recent presentation before the NIH by Dr. Martin Pall, about the human health and environmental impacts of the proposed roll-out of 5G. This short (9 minutes) presentation by Dr. Martin Pall to the NIH, that really sums up the alarming and compelling science our tech. industries and government agencies have willfully ignored, all for the "greater greed":

<https://www.youtube.com/watch?v=kBsUWbUB6PE>

A 53 page paper by Dr. Pall that documents and references the points he makes in his summary video:

Please support the restoration of home rule where it has been usurped by the state government.
